Absolute AR
101 Jim Wright Freeway S.
Ste 200
Fort Worth, TX 76108-2202
Web Site: http://www.absolutercm.com

Company Description:
A solution of National Health Information Network, Inc., Absolute AR has been in the pharmacy revenue cycle management business for over 25 years and is currently servicing over 5,300 customers. From chasing claims services to a complete DIR toolkit and more, pharmacies can feel confident they are maximizing profits and securing their financial future. Our integrated suite of products, which is available to pharmacies regardless of what pharmacy system they use, includes: full-service, turnkey RCM services, vast reporting capabilities driven by integrated business intelligence, contract management and reimbursement analysis services to ensure pharmacies are being paid correctly, dedicated RCM experts that act as an extension of your team, and more. With our deep knowledge of pharmacy RCM and experience working with a diverse portfolio of clients, we provide exemplary customer service, as well as continuous technological improvement to make sure we keep you ahead of the curve. Achieve Rx, provides the tools and information required to effectively manage third-party receivables. From reducing your aging and write-offs, sales and gross margin reporting, executive summaries and benchmark information, Achieve RX provides a complete and flexible solution for retail pharmacy third-party reconciliation. Acquire Rx, is an integrated chasing claims service that offers a full spectrum of services to alleviate daily tasks of staff involved in the collection of unpaid, partially paid, overpaid, and questionable third-party receivables. Actual Rx is a third-party contract management solution that provides visibility into contract reimbursement rates, determination of compliance, price management, and more. MAC Appeals: Simplify and gain visibility into the MAC appeal process with our innovative solution that provides the ability to track MAC appeal submissions, correspondence, and gains via our Savings Tracker, which also tracks wins for each submission and calculates additional revenue. Audit Rx, a complete pharmacy and audit tracking tool, allows you to effectively track and manage all audit activities with features like event management, document linking, audit cost and status reporting.

Alliance For Patient Medication Safety ................................................................. 411
2530 Professional Rd Ste 202
North Chesterfield, VA 23235-3217
Web Site: http://www.medicationsafety.org

Company Description:
Mistakes happen. Get a handle on the inherent risks in your pharmacy’s workflow and discover opportunities for improvement in a legally protected environment. The Alliance for Patient Medication Safety® (APMS®) is a Patient Safety Organization (PSO), so partnering with us offers federal protection to the patient safety data collected, studied and reported. Our programs provide tools and resources for community pharmacies to implement and maintain a continuous quality improvement program. Charts, graphs, and spreadsheets of aggregate safety data help your organization track errors so that management can zero in on weak spots with corrective training or new process steps. In addition to helping you identify and decrease potential harmful patient safety events, you can comply with accreditation, credentialing, health insurance, and state and federal quality improvement requirements.

AssureCare

250 W Court St
Cincinnati, OH 45202-1088
Web Site: http://www.assurecare.com

Company Description:
AssureCare is a privately held healthcare technology company that provides innovative care management solutions to pharmacy, commercial and health and human service providers. AssureCare’s software platform, MedCompass®, is used by healthcare providers throughout the United States to deliver end-to-end care management for millions of patients daily. MedCompass transforms healthcare management by enabling the delivery of higher quality, cost effective, collaborative care across the complete continuum of care. This platform serves as a single source for care coordination of all care management functions in one system allowing care professionals to make better decisions that dramatically improve quality of care. AssureCare has recently enhanced our Medication Management module to enable pharmacists to practice at the top of their game and gain traction with their provider status.

Cardinal Health

7000 Cardinal Pl
Dublin, OH 43017-1092
Web Site: http://www.cardinalhealth.com

**Company Description:**
Headquartered in Dublin, Ohio, Cardinal Health is a Fortune 19 healthcare services company that improves the cost-effectiveness of healthcare. As the business behind healthcare, Cardinal Health helps pharmacies, hospitals and ambulatory care sites focus on patient care while reducing costs, improved efficiency and quality, and increasing profitability. As one of the largest healthcare companies in the world, Cardinal Health is an essential link in the healthcare supply chain, providing pharmaceuticals and medical products to more than 40,000 locations each day. The company is also a leading manufacturer of medical and surgical products, including gloves, surgical apparel and fluid management products. In addition, the company supports the growing diagnostic industry by supplying medical products to clinical laboratories and operating the nation’s largest network of radiopharmacies that dispense products to aid in the early diagnosis and treatment of disease. Cardinal Health employs more than 30,000 people worldwide. More information about the company may be found at cardinalhealth.com.

HPOne, Inc.
35 Nutmeg Dr Ste 220
Trumbull, CT 06611-5496
Web Site: http://www.hpone.com

Company Description:
HPOne was founded in 2006 with a singular vision: create custom sales, marketing and contact solutions focused on the health insurance industry. We have become one of the highest performing marketing, member acquisition and retention companies in the industry, serving consumers and health plan members in every state. Our mission continues to be creating loyal and profitable customers for our clients and support the retention of those customers through effective outreach and activation programs. With a recently created pharmacy-focused division, the company has developed tools and programs that drive patient retention outcomes for pharmacy customers aging-in to Medicare. HPOne created KeepRx(SM), a branded Medicare patient retention service that delivers superior patient retention outcomes for pharmacies and healthcare delivery organizations for its patients aging-in to Medicare. Through a combination of awareness and engagement programs, including digital, in-store, direct mail and telephonic methods, HPOne helps identify and engage those patients most at risk for changing their prescription purchase buying behavior as a result of their impending Medicare choices. With the goal of enrolling patients in a Medicare plan that includes the retailer as a preferred provider, HPOne can educate seniors on their options and enroll them in retailer-friendly plans.

IQVIA
400 Campus Dr
Collegeville, PA 19426-4948
Web Site: http://www.iqvia.com

Company Description:
Human Data Science is a powerful emerging discipline that integrates the study of human science with breakthroughs in data science and technology to advance our understanding of human health. Ultimately, it’s a catalyst for advancing human wellbeing through more creative ways of developing insights and evidence. A way to reframe and reimagine the future of healthcare. A way for everyone to make better decisions using more relevant information. Through Human Data Science, everyone who makes decisions in healthcare should be inspired/empowered to reimagine what is possible. We can rise to the challenge of being more precise in clinical and commercial decision making, considering every person as an individual who needs a relevant data set to make the right decision. By unleashing the power of data science and applying it to human science, we can collect, collaborate, and innovate to help the industry improve health and business outcomes.

Web Site: http://www.pdxinc.com

Company Description:
For over 30 years, PDX, Inc. has been the market leader in pharmacy software solutions and services. An unwavering focus on developing patient-centric and innovative technology has allowed PDX to continue to deliver leading solutions including a predictive and action-oriented business intelligence platform, fully integrated retail, specialty and outpatient pharmacy solutions, and more. Our products and services are designed to help drive operational results for our customers and increase patient outcomes. EPS, Our core pharmacy workflow, telemedicine, and dispensing platform, improves processes and efficiency, enhances patient safety and accuracy, promotes greater patient care and convenience, allows for future growth and increased prescription volume, and increased persistence and compliance with AutoFill® and AutoMail® Cloud EPS Our Enterprise Pharmacy Software without the hardware footprint. Care Rx An inter-operable clinical services platform that manages all MTM efforts, wellness programs, medication adherence programs, patient data including lab work and immunizations. Care Rx simplifies the reporting/transmission of immunization records to all state registries and brings clients the ability to bill using X12 medical claim billing. Explore DX, Our Business Intelligence platform is designed to meet the business intelligence needs of the healthcare marketplace at large through retrospective, near real-time, and predictive analytics. Explore Dx provides unmatched speed, scalability, and reliability. Turn Rx An automated inventory management solution driven by predictive analytics, is fully integrated with EPS and provides an intuitive web interface that allows you the ability to manage and track inventory at a pharmacy or corporate level. Inventory maintenance is seamless through the use of dynamic order points, product linking, and flexible predictive algorithms designed to meet the needs of our clients. PDX Manufacturer Services™ (PDX-MS) Enhance provider and patient relationships, help increase medication adherence and lower prescription abandonment with PDX Manufacturer Services. With access to robust de-identified data and member chain pharmacy point-of-sale education capabilities, PDX-MS delivers unprecedented insights and opportunities to its customers and sponsors. Specialty Pharmacy, Our Specialty solution houses all your patients' information in one location, accessible by all your staff, both clinical and operational, providing a single source of truth that manages dispensing, clinical pathways, and pharma reporting. Health System/ Outpatient Pharmacy, Improve your overall health system with our healthcare solutions. With a proven track record of implementing our solution in one of the largest health systems in the United States, we can raise your game with transition of care capabilities, immunization reporting, mobile partnerships, and more.
